

Teaching Innovation Program - India 9-10 January 2009; XLRI Jamshedpur

--AGENDA--

Overall Program Objectives

Our goal is to build a network of faculty, business and NGO Leaders who support efforts within Indian business education to better prepare managers to tackle the environmental and social issues that affect business. We agreed to do this by:

- Stimulating new RESEARCH on business education and business practice;
- Developing new CURRICULAR models and teaching materials – possibly including joint principles or a model curriculum;
- Changing the CONTEXT of business education – including recruitment, admissions, and rankings.

Meeting Objectives

- Review progress of TIP projects and provide feedback on usability and quality of content;
- Jointly problem solve on ways to expand the impact of TIP projects – on each campus and beyond;
- Agree on future direction, priorities, and ways to cost-effectively sustain the program;
- Discuss effective ways to share and promote use of outputs to schools and businesses outside of TIP.
